

# Discover B-THENET

The first Thematic Network of European Beekeeping

## Welcome to the second issue of B-THENET Newsletter!

### A fruitful 2025 in review

Explore the B-THENET achievements and news!

#### Tools for Beekeepers and advisors

B-THENET is developing engaging **infographics designed to support beekeepers and advisors** in sharing and assimilating vital information. Check out our first **22 infographics**, available in English, all produced from our thematic network's collaborative work. They're visual, practical, and ready to enhance your learning!

##### Infographics on Good Beekeeping Practices

- Finding the Right Spot for Your Apiary
- Setting Up the Apiary

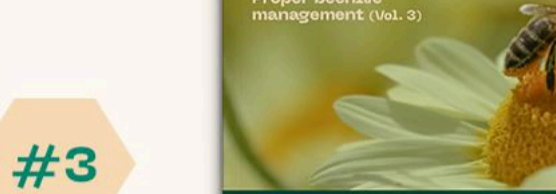

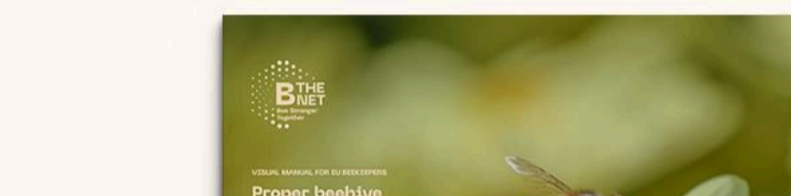

##### Infographics on Biosecurity Measures

- Biotechniques
- How to Use Organic Anti-Varroa Treatments
- Using Low-Impact Compounds Properly

[Explore the 22 Infographics](#)

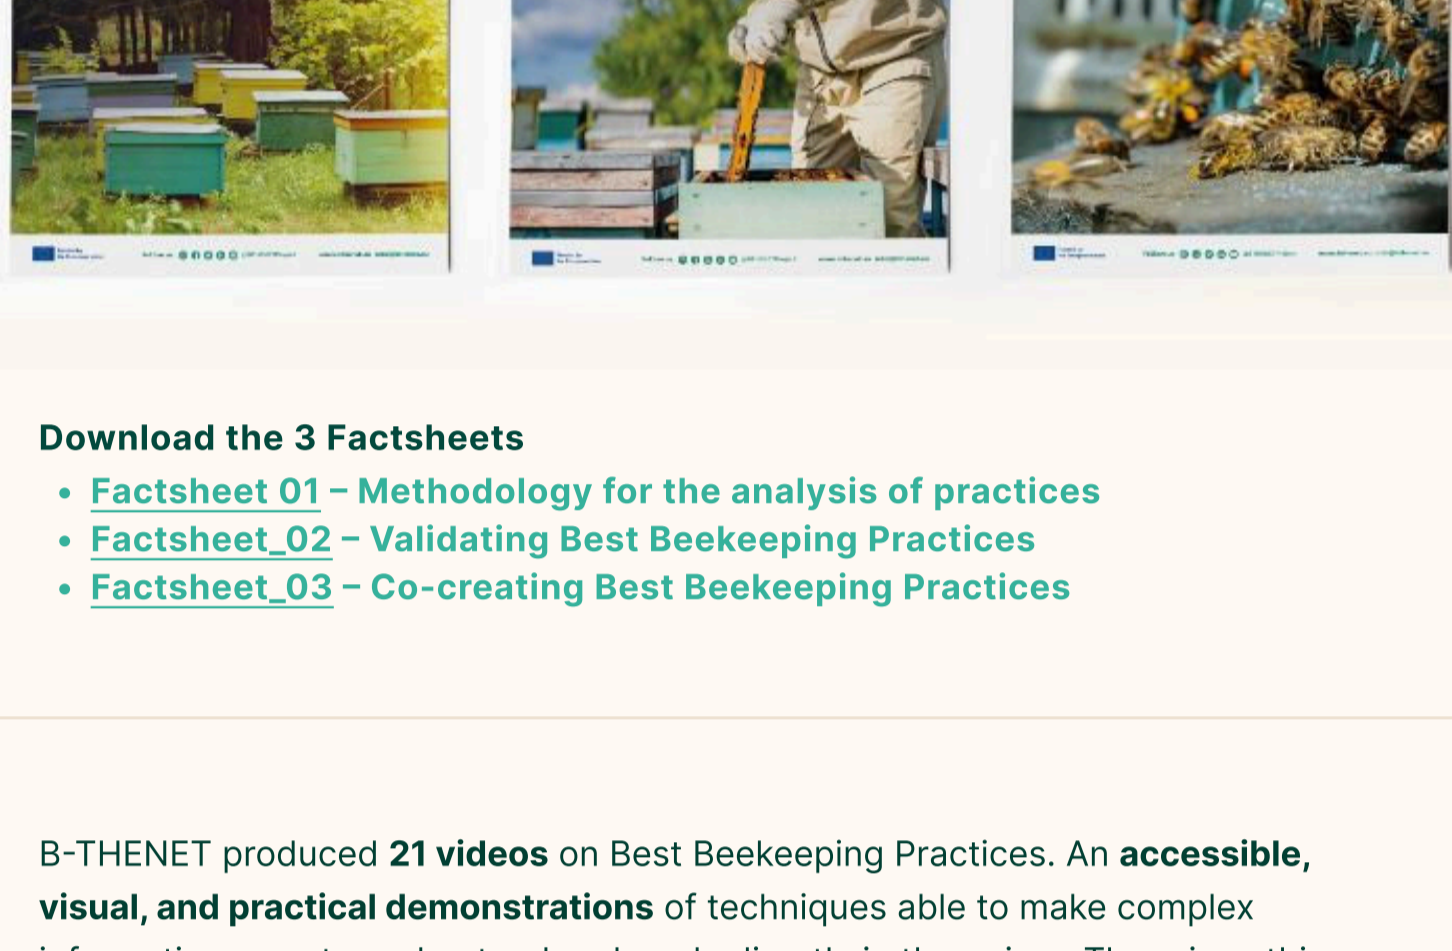

Riding the wave of efficient knowledge sharing, B-THENET has produced three **digital booklets!** These guides offer practical, straightforward advice to help you maintain healthy, thriving hives. Check them out!

##### Access the 3 Digital Booklets

Ever wondered how "Best Beekeeping Practices" are actually developed and proven? The B-THENET project is transparent about our journey! We're excited to share a deep dive into our main procedures through our latest **factsheets**, available in English.

##### Download the 3 Factsheets

- [Factsheet\\_01 - Methodology for the analysis of practices](#)
- [Factsheet\\_02 - Validating Best Beekeeping Practices](#)
- [Factsheet\\_03 - Co-creating Best Beekeeping Practices](#)

B-THENET produced **21 videos** on Best Beekeeping Practices. An **accessible, visual, and practical demonstrations** of techniques able to make complex information easy to understand and apply directly in the apiary. There is nothing better than **real-world examples and tips** that will help improve hive health and productivity. To ensure maximum accessibility across our international partnership, all project videos feature local language audio tracks complemented by accurate English subtitles.

### Excellence in Beekeeping: B-THENET Honoured by FAO and at Apimondia APIMONDIA Congress 2025

##### B-THENET's Contribution to APIMONDIA Congress 2025

B-THENET participated in the APIMONDIA Congress 2025 with many activities!

APIMONDIA is the International Federation of Beekeepers' Associations, a non-governmental organisation that has been active since 1895, making it one of the oldest international federations dedicated to a specific agricultural sector. Its core mission is to promote scientific, technical, ecological, social and economic apicultural development worldwide. At the 2025 Congress held in Copenhagen, B-THENET enriched dialogue through innovative tools, collaborative expertise and evidence-based insights.

##### B-THENET Wins Prestigious Global Technical Recognition from FAO

The B-THENET project is profoundly honoured to announce it has received the prestigious Global Technical Recognition of Good Practices and Innovations in Sustainable Livestock Transformation, One Health, Animal Health and Reference Centres from the Food and Agriculture Organization of the United Nations (FAO).

B-THENET earned this top recognition for its innovative bottom-up methodology and the creation of an open-access dataset of Best Beekeeping Practices hosted on the B-THENET Digital Platform, and its ready-to-launch AI integration for global scalability.
